# LIGHT IT UP!

**RAMSEYBROS**

**We are your local HELLA advisor and supplier.**

**Take the guesswork out of night work with our specialised lighting design plans by Hella.**

No two lighting setups are the same. The system that suits your needs will depend on your machinery type, model and size – as well as how you configure and use your gear.

We'll account for all these variables and design a package that illuminates your machine and its work zone properly.

## LED WORK LAMPS

HELLA Work Lamps combine low current multi-volt (10-30VDC) performance, with full dust and moisture seal (IP6K7 and IP6K9K).
