

## Gear up for hay season

### VENUS ULTIMATE EXTRA HD WHITE

"IDEAL ALL-PURPOSE BIG BALE TWINE"

Specially developed for high density baling with Krone HDP, HDP II and Massey Ferguson XD balers. Excellent knot holding properties and knot strength make this the ideal all-purpose big bale twine for most crops and conditions.

F1353049

KNOT STRENGTH KG	290
TENSILE STRENGTH KG	420
SPOOLS PER PACK	2
METRES PER PACK	2180
BALES PER PACK	
4'X4'X8'	50
3'X4'X8'	53
KG PER PACK	20.5
PACKS PER PALLET	48

### VENUS RED FORCE+

"ONE OF THE STRONGEST BIG BALE TWINES"

One of the strongest big bale twines on the market, with a massive 350kg knot strength. Specifically developed for the Massey 2370UHD high density Big Square Baler and UV stabilised for tough Australian conditions.

F1353051

## VENUS ULTIMATE XX HD WHITE

Specially designed for the Krone HDP and HDP II and extreme baling conditions - including harsh, springy crops; low moisture content; maximum density bales; and rough handling during loading, stacking and transportation.

F1353050

KNOT STRENGTH KG	305
TENSILE STRENGTH KG	454
SPOOLS PER PACK	2
METRES PER PACK	2030
BALES PER PACK	
4'X4'X8'	47
3'X4'X8'	50
KG PER PACK	20.5
PACKS PER PALLET	48

## VENUS EXTRA BLUE

The proven all-rounder for non-high density balers such as the Massey Ferguson 2170 and 2270. Also available as Venus Big Blue in a lightweight 2,040m pack.

F1353044

KNOT STRENGTH KG	245
TENSILE STRENGTH KG	350
SPOOLS PER PACK	2
METRES PER PACK	2460
BALES PER PACK	
4'X4'X8'	56
3'X4'X8'	61
KG PER PACK	20.5
PACKS PER PALLET	48

## VENUS PREMIUM BLUE

Particularly suited to medium density bales and crops with low moisture content. High UV stabilisation for Australian conditions.

F1351044

KNOT STRENGTH KG	88
TENSILE STRENGTH KG	145
SPOOLS PER PACK	2
METRES PER PACK	4000
BALES PER PACK	
14"X18"X30"	894
14"X18"X36"	787
KG PER PACK	12.9
PACKS PER PALLET	80

## SILAGE FILM REPAIR TAPE

A7352599  
(GREEN)

Venus VH17 Silage Repair tape is a high tack UV stabilized tape for repairing and patching small tears and punctures on silage film wrapped bales.

96mm X 25m  
AVAILABLE IN GREEN AND BLACK

# TOTALCOVER®

Nothing covers like Totalcover

## ROUND BALE NETWRAP

Designed to suit all round balers, TOTALCOVER knitted high density polyethylene (HDPE) netwrap has high UV stabilisation specially formulated for Australian conditions.

Guaranteed length and strength provides trouble free performance and superior bale coverage. TOTALCOVER consistently goes right to the edge of the bale (1.23m) or over the edge of the bale (1.3m) to ensure maximum protection of the crop during baling, handling and transportation.

14GM EDGE TO EDGE

### "NOTHING COVERS LIKE TOTALCOVER"

ROLL SIZE (METRES)	BREAK FORCE (KGF)	KG PER ROLL INC. CORE (APPROX.)	ROLLS PER PALLET	BALES PER ROLL*
14gm PER LINEAR METRE, GREEN SELVEDGE BOTH ENDS				
1.23 X 2000	330	30.00	32	170
1.23 X 3000	330	44.00	28	254
13.74gm PER LINEAR METRE, PURPLE SELVEDGE BOTH ENDS				
1.30 X 2000	315	29.40	32	170
1.30 X 3000	315	43.10	28	254

\* Bales per roll based on 5' diameter bales using 2.5 wraps.

# PowerStretch®

## SILAGE FILM

KEEPS NUTRITION IN - AIR, LIGHT AND WATER OUT

European made film UV stabilised to suit Australian conditions up to 160kly (min. 12 months). Strong instant tack for airtight seal with minimal tails. Five layer film with 55-70% stretch. High impact resistance, breaking strength and tear resistance prevents punctures and breaks during wrapping, handling and storage. High impermeability to air and water.

F1362090 (Green, 5 layer)

750mm X 1500m X 25µm  
AVAILABLE IN GREEN OR BLACK
