HELLA Black Magic Lightbars

EDGELESS DESIGN • SLIM LINES • VERSATILE MOUNTING

HELLA's sleek new Black Magic range provides even, controlled light for easier, safer night operations. Temperature controlled to optimise brightness and protect the LEDs, dustproof and waterproof.

Multi-volt 10-30V DC | Fully sealed | P68 IP69K dust & moisture protection ECE R10 Interference-free | Color temp 5700 Kel

BLACK MAGIC TOUGH 52" DOUBLE ROW CURVED LIGHTBAR

Double Row LED high-beam lightbar

- 100 High intensity LEDs
- 20,000 lumen

IGJ358I9764I

\$661

BLACK MAGIC STD 20" LED SLIM LIGHTBAR

IFJ358I7630I

Single Row LED high-beam lightbar

- 21 High intensity LEDs
- 6,000 lumen

\$152

BLACK MAGIC STD 21.5" LED DOUBLE LIGHTBAR

IFJ358I7640I

Single Row LED high-beam lightbar

- 21 High intensity LEDs
- 11,000 lumen

\$216

BLACK MAGIC STD MINI LIGHTBAR 6.2" FLOOD

IFB358I7620I

Single Row LED high-beam lightbar

- 21 High intensity LEDs
- 1,600 lumen

LIGHT IT UP!

Take the guesswork out of night work with our specialised lighting design plans by Hella.

HELLA S Series Work Lamps

The HELLA 'S' Halogen Replacement series are designed for longer life and higher efficiency, with low weight and high corrosion resistance due to thermal plastic materials. These lamps offer excellent lumen/watt output and feature reliable overheating protection, automatically dimming when temperatures reach between +50°C and +85°C.

S SERIES MODULE 70 1000 LUMEN

- 1,000 lumen close-range
- worklight
- Fully sealed dust and moisture protection
- 12 watts, 12/24 DC

S SERIES POWER BEAM 1850 LUMEN

- 1,800 lumen close-range
- worklight
- Fully sealed dust and moisture protection
- 19 watts, 12/24 DC

HELLA OVAL 100 LED Thermo Pro LED Work Lamps

The HELLA Oval 100 LED Thermo Pro is the latest addition to the Oval 100 work lamp family. This work lamp has an innovative corrosion resistant thermally conductive plastic housing with cooling fins on the back to ensure sufficient heat dissipation from the 8 high-power LEDs.

OVAL THERMO PRO LED

Available in side-mounting and swivel mounting

- 9-33 VDC
- Close range
- 1700 lumen

SCANGRIP Led Inspection Lamps

UNIPEN LI-ION COB LED

- Low current consumption
- 80 Lumen output
- Strong built-in magnet

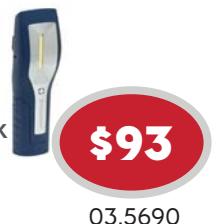

IVIEW HEAD LAMP ON/OFF SENSOR

- Powerful rechargeable headlamp
- 40-400Lumen

MAG PRO LI-ION WITH CHARGER

- Impact and shock resistant
- Built-in magnet
- 600 Lumen Output

NOVA MINI

- Ultra-slim and compact
- Up to 1000 Lumen
- Stepless dimmer function

NOVA R

- Rechargeable
- Up to 2000 Lumen
- Light dimmable in 5 steps

HELLA RotaLED Beacons

Bright amber beacons. Optimum signal. Low power consumption. Impact and dirt resistant polycarbonate lens. (12/24V)

Mini / Micro Light Bar

Minimal design, maximum effect: these words aptly capture the HELLA's powerful "Mini Lightbar" and "Micro Lightbar" LED warning lamps. The intense 360° warning signal can be either flashing or rotating, depending on the operating conditions for both, and generates a high level of attention. Both the Mini Lightbar and the Micro Lightbar are available with either a clear or an amber cover lens.

MICRO LIGHT BAR
